

15

REMARKS:

In response to the request for restriction to one invention, Applicant hereby elects Invention I directed to Claims 1 to 17. Claims 18 to 21 have thus been cancelled without prejudice to the option of the Applicant to file a divisional application to the non-elected claims in due course.

New independent Claims 22 and 23 have been added to replace canceled independent Claims 18 and 20 so that the number of claims has been reduced and the number of independent claims remains unchanged thus avoiding any additional claims fees.

New Claims 22 and 23 are directed to aspects of the invention previously described and are slightly broader than Claims 1 and 16 on which they are based.

Minor corrections have been entered in the independent claims to more clearly define the direction of movement of the holder by which it can be removed.

It is requested that the application be examined as amended.

Respectfully submitted

GYULA KALDER NAGY
